The 3 R's for Safe Medicine Use

RISK No medicine is 100% risk free.
Know your medicine's risks and benefits.

RESPECT Respect the power of your
medicine and the value of medicines
properly used.

RESPONSIBILITY Take responsibility
for learning how to take each
medication safely.

Not sure about any of the 3 R's?

Follow this important rule: when in doubt, ask
first. Your healthcare professional can help you
get the facts you need to use medicines correctly.
